Deputy Principal Report

Kia ora koutou katoa,

Although the students had an extra short week this week, the staff were at school on Tuesday expanding and extending their own learning. We had around 70 other teaching and support staff from the Reporoa Cluster Kahui Ako join us. Teachers listened to guest speakers and took part in workshops focused on different learning areas, programmes to use in these areas and how to help students regulate their emotions.

We love seeing our community using our awesome grounds outside of school hours. We just ask that they are respected. NO WHEELS are to go on the turf please. This includes bikes, scooters, skateboards, roller blades etc. We also ask that you take your rubbish home with you. There are no toileting facilities open outside of school hours, so please make sure you go before you come down to play! Let's keep our kura well cared for.

Next week we will be having a school disco, check out the details in Rakau's snippets. Dinner order forms attached, you can also order online <https://forms.gle/8NNRfqs8uvzDVPap9>.

Hillary Outdoor Camp

On Monday Chase Roberts and Callum Koekemoer made their way down to the Hillary Outdoors pursuits centre for a week of learning outside the classroom. We are looking forward to hearing about their adventures, and sharing them next week.

MAHURI

Riddle: **What is it that no one wants to have, but no one wants to lose either?**

It was a short week but we still managed to squeeze in lots of learning (and fun).

This process requires us to think about the order that things happen in and often the 'cause and effect' of events.

The past couple of weeks we have begun learning about explanation writing; writing with the purpose of explaining how or why something happens.

An example of this was in their butterfly life cycle writing they brought home last week; they had to explain the order of the life cycle and remember that the next step can not happen without the previous step (the egg must hatch to create a caterpillar and you do not get a butterfly without a chrysalis first).

Have a good week, any queries pop in and see me or send me an email. Jasmine

TUPU

Fact of the week:
The ocean covers 71% of the Earth's surface.

A short week this week. Our class has been doing amazing mahi in practising their sight words and reading every night!

It makes a huge difference in building a student's confidence and fluency.

Well done Tamariki!
